ResMed's Back In Stock

In June 2021, the Philips Respironics recall doubled CPAP machine demand overnight. Nearly 2 years later, their top competitor, ResMed is finally manufacturing enough supply to keep providers like AeroFlow Sleep stocked.

Our patients can now get ResMed AirSense 10 or 11 machines in addition to secondary CPAP models; like Resvent iBreeze and Luna 3. All of which may be covered up to 100% through insurance, but hurry; stock is limited!

Current AeroFlow Sleep patients due for a replacement machine should call their dedicated specialist to redeem.

New patients, start your order by clicking below:

CURRENT PROJECTS: CELEBRATING & UNITING

Aeroflow Healthcare brings its Sales & Marketing associates together to celebrate achievements, unite on strategies across our departments, and prepare for the next year, supporting you all.

There, we honored Aeroflow Sleep team members: Tim Russell, Kristen Fowler, John Williams, Meagan Remmes, Nataliya Sandulyak, and more! See "Now Showing."

Did You Know?

Aeroflow serves more than just people with sleep apnea; we also serve expecting mothers, incontinence patients, and diabetics.

We understand several symptoms and conditions overlap, so feel free to ask your dedicated Sleep Specialist about how else we may help you on your health journey.

NOW SHOWING

CLINICIANS HONORED:

CYNTHIA WILLIAMS
& MICHELLE WORLEY

In addition to those named in the previous story, two Aeroflow Sleep clinicians were recognized: Cynthia Williams and Michelle Worley.

The latter of which you know and love from our YouTube channel. Click to re-watch Michelle's first playlist: Troubleshooting Your CPAP.

How do I prevent nose sores
when wearing CPAP mask?

IN THE KNOW WITH AEROFLOW

THIS APRIL, ARE YOU LOSING COVERAGE OR GAINING IT?

Public Health Emergency (PHE) coverage helped patients receive medical care during the height of the COVID-19 pandemic, never having to reenroll annually or worry about changing rates.

Now that the pandemic has ended, some states are rolling back PHE on April 1st. Many will lose coverage, especially those with Medicaid. Yet, this is same day Medicare benefits kick in for others.

Aeroflow Sleep wants you to be prepared if you're losing or gaining insurance. Here's what you need to do...

I HAVE MEDICAID. WHAT SHOULD I DO?

If you have Medicaid, your coverage is issued by the state government. We strongly encourage anyone with Medicaid to speak with your state rep before March ends. This will ensure you have the healthcare coverage you need.

I HAVE MEDICARE. AM I AFFECTED?

If you have Medicare, your coverage is issued by the U.S. government. Re-enrollment isn't an issue...unless you haven't recently paid your bill. That said, you have until April 1st to reenroll or newly enroll if you need to.

WHAT TO DO IF YOUR COVERAGE IS CHANGING

If your coverage does change, you can call your dedicated Aeroflow Sleep Specialist at 866-616-1687 to update your account. After all, as your PAP supplier, it's our job to ensure your personal health is supported even when public health isn't.
