To use Aeroflow Sleep services, patients must purchase commercial insurance or qualify for federal health insurance.

IN THE KNOW WITH AEROFLOW

WHO IS AEROFLOW SLEEP AND HOW DOES IT WORK?

Our mission is to help patients sleep well and live better by providing resources, services, and the PAP equipment and supplies needed to easily navigate the sleep apnea journey.

We do this by taking the headache out of healthcare in 3 simple steps, but first we need your help...

CHECK YOUR ELIGIBILITY

Fill out our online qualify form, so we can determine if your insurance provider is in network with Aeroflow Sleep. Then, tell us which PAP supplies you currently use; if any.

VERIFY YOUR INSURANCE

Aeroflow Sleep will use the information provided in your qualify form to work with your insurance provider and figure out what your policy covers together, both partially and in full.

OBTAIN YOUR PRESCRIPTION

Next, Aeroflow Sleep will contact your doctor, so we can submit all required paperwork to your insurance provider in your behalf. Proof of sleep study and a prescription for PAP supplies are required per insurance guidelines.

SHIP YOUR CPAP SUPPLIES

The hard work is finally done, and your new order of PAP supplies will be shipped right to your door from the Aeroflow Sleep warehouse. Plus, we'll inform you when it's time to replace existing equipment and when new products are released. After all, we believe in connection. We're here to help!

CAN THE DENTIST CURE OSA?

Some alternate treatment options work for patients with mild to moderate sleep apnea and can be recommended by your dentist!
